

WHAT TO EXPECT?

YOUR FAMILY PHOTO SHOOT SESSION GUIDE

Understanding your story, what makes your family tick and what you require from the shoot is vital. These extra details can be discussed by phone before your session.

WHAT HAPPENS?

Your session will last roughly an hour, I stop shooting when I am happy I have captured what I need. For children of all ages, this is generally the perfect amount of time.

The most natural shots when you are at ease and simply exploring the great outdoors. Just talking, laughing and having fun with each other.

My sessions are relaxed, fun and normally full of laughter.

With every family, I would photograph the whole family, siblings together and individual shots of the children and parents too. I am there to capture you doing what you do as a family but there will be a few posed shots as well.

Within 7 days of your shoot, your fully edited images will be uploaded to a password protected online gallery which you can share access with friends and family.

You can then decide which pictures you love and we can make an appointment to discuss how we are going to make them look fab in your home

Oh Oh! LETS TALK ABOUT THE WEATHER

It's Scotland after all, unpredictable and changeable by the minute. I can shoot in most dry conditions, but would need to reschedule for heavy rain / snow or thunderstorms.

I often find weather reports 24 hours prior to the shoot most accurate. If bad weather is forecast, I would make contact with you by phone and email the day before to discuss future scheduled dates.
